EXPERIENCE

Samsung Securities, Seoul, Korea Jan 2023 – Present

AI Engineer, seconded to **Samsung Finance AI Center** (Samsung Life), serving 4 affiliates Jan 2025 – Present
AI Agent Platform, PoC & Skill Hub (2026)

- PoC lead for group AI platforms: M365 Copilot rollout review across 4 affiliates (user interviews, E3/E5 licensing, joint council with Microsoft) and M365 vs. FabriX feature analysis
- Built an enterprise skill hub for AI agents (catalog, recommender, audit pipeline); curated 44 skills from ~700 public skills via weighted scoring, AI review and human review
- Automated skill validation (security, quality, auto-upgrade, platform tests): 27 of 49 skills passed; reported to the Center Head, shaping certified-skill governance and group-wide rollout
- Benchmarked 3 RAG-agent architectures (Databricks, Databricks + MS Foundry, Foundry) on 1,000+ insurance dispute records for accuracy, latency and cost
- Taught AI to every new-hire cohort since 2024 H2 (4 cohorts) and to admin support staff (Dec 2025)

LLM Training & Evaluation Data (2025)

- Converted 530+ finance books into structured JSON with metadata, QA pairs and quality checks
- Built a multidimensional evaluation taxonomy with MCQ, short-answer, similarity and LLM-judge scoring
- Automated dataset versioning, prompt/answer audits and reproducible scoring

Data Engineer

Jan 2023 – Dec 2024

- Operated DW-to-Hadoop pipelines, tuned Hive/Impala partitioning, and managed CDSW, NiFi and Kafka
- Executed production validation for a real-time top-traded stocks ranking service
- Operated an internal RAG-based LLM QA service (300+ daily transactions, 130+ users)
- Co-led onboarding for 37 new hires (Jan–Feb 2024)

Data Engineering Intern, **Samsung Securities**, Seoul, Korea

Jul 2022 – Dec 2022

- Automated DB anomaly reporting; built a financial word dictionary raising stemmer accuracy 10% → 42%

PROJECTS

orbit, TechCamp Korea 2026 (hosted by the U.S. Embassy Seoul)

May 2026 – Jun 2026

- Private alumni network that turns post-event ties into a searchable directory kept current via LinkedIn (React, FastAPI, PostgreSQL, Docker)
- My role: built LinkedIn profile sync and activity-feed scraping, admin CSV allowlist upload/export, avatar upload and the production Docker deployment

Ask-Insurance, 2026 Financial AI Challenge (hosted by the Financial Security Institute)

Aug – Sep 2026

- AI service explaining likely claim-denial issues to patients via agentic RAG over FSS dispute cases, policy terms and KCD codes (4-person team)
- My role: planning lead — owned the proposal from draft to fact-checked submission; built the input PII guardrail (KoELECTRA NER, 89% name recall) and a MyData consultation flow

EDUCATION

Sogang University, Seoul, Korea

Mar 2017 – Aug 2022

B.E. in Data Science; B.A. in Economics (Financial Economics) · Graduated Cum Laude

Exchange Student, **University of San Francisco**, San Francisco, CA

Jan 2020 – May 2020

EXTRACURRICULAR

President, **BOAZ (Bigdata Union Club)**

Jan 2021 – Jan 2022

- Led weekly data engineering sessions for 51 members (ML to Kafka & Spark); reviewed 11 NLP papers

SKILLS

Technical: Python (Advanced), MySQL (Advanced), Linux (Intermediate), Docker (Intermediate)

Language: Korean (Native), English (Intermediate)
